North Natomas Transportation Improvement Grants

The purpose of the North Natomas Transportation Improvement Grant (TIG) Program is to support North Natomas businesses in creating innovative solutions to transportation problems. These small grants, awarded on a reimbursable basis, are designed to stimulate the local economy by providing the means to positively influence the transportation behaviors of customers and/or employees.

The TIG Program is funded by North Natomas Jibe, a nonprofit organization with the mission to foster transportation behaviors that enhance placemaking in our community through advocacy, programs, education, and services.

ELIGIBILITY
Proposals from North Natomas business owners, property owners and property managers whose address is within the district zone (see map on back) and interests are consistent with the goals of the TIG Program are eligible. The program will not consider grant proposals for retroactive funding of projects already completed, projects that are a condition for building approval, or a TMP requirement for the project. Infrastructure projects must be approved by property managers/owners.

PROJECT TYPES
Grants will be awarded for programs, projects and campaigns that complete one or more of the following (not limited to examples):

- Reduce Single Occupancy Vehicle (SOV) miles traveled (bike racks, retail incentives for walk/bike, carpool/vanpool subsidies, picnic tables)
- Improve North Natomas’ bicycle and pedestrian connectivity (walkways, curb cuts, crosswalks, lighting)
- Establish visual and spatial assets that connect the community (water fountains, wayfinding signage, transportation themed art)
- Encourage increased pedestrian and bicycle traffic (marketing/incentive campaigns, bike corral, bike fix-it stations)
- Promote viable transportation options for employees and customers (office bikeshare, electric vehicle charging stations, lunchtime seminars, bike clinics)

APPLICATION PROCEDURE
Applicants should complete and submit one application for each project. Should the proposal be selected for an award, a memorandum of agreement, which provides clarification or more information about the proposed project, will be requested.

FUNDING: $30,000 Total funds available in TIG Program
$10,000 Maximum award amount per project

MATCH: Minimum 10% of the project cost matched by business
